

MY SISTER

How well do you know your bestie? This activity will help you find out. Read my poem below then complete the activity. Show it to your in-school coordinator for a 30-minute stamp in your Passports to Learning.

My Sister by Alys Jackson

My sister loves excitement if it's big or fast or scary.

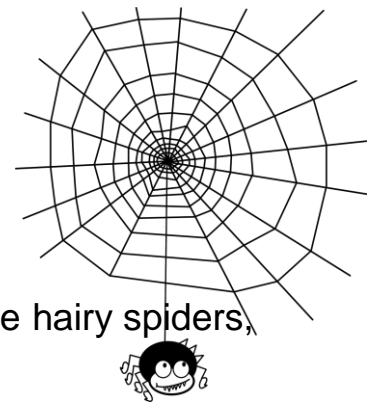

Spooky rides with monster slides and spiders that are hairy.

It's hard to find her presents, but I'm sure that this will thrill her.

I snuck into the local zoo and brought home their gorilla.

THE END

Of course, this poem isn't really true. My sister doesn't actually like hairy spiders, and I **promise** that I didn't steal a gorilla.

But it was lots of fun writing. And my sister does have lots of odd habits. Firstly, she loves eating pickled walnuts. I KNOW, RIGHT?! Strange.

And she can't stop collecting cacti. Actually, that's me. But don't tell anyone. 🤫

So, what's your brother, sister or best friend really like? Make a list of 3 questions and ask them. What are the things that they love, hate or dream about? Do they

have any odd habits? Are they the same or different to yours? Write down your questions and their answers in the table below.

Remember to upload the table through the Children's University portal for a 30-minute stamp in your Passport. Or print out the answers and show your in-school coordinator. And don't forget to leave me a comment. I love hearing your thoughts and I always answer.
